Auditor's report

Introduction

I have reviewed the attached balance sheet for Nolato AB as at 30 June 2009, as well as the accompanying reports on earnings, changes in shareholders' equity and changes in cash flow during the six-month period ending on that date, and a summary of key accounting principles and other additional information. It is the Board of Directors and the President who are responsible for the preparation and accurate presentation of this interim financial information in accordance with IAS 34 and the Swedish Annual Accounts Act. My responsibility is to express a conclusion on this interim financial information based on my review.

Focus and scope of review

I have conducted my review in accordance with the Standard on Review Engagements (SÖG) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially different in focus and less far-reaching in scope

than an audit conducted in accordance with the Standards on Auditing in Sweden (RS) and other generally accepted auditing practices. The procedures performed in a review do not enable me to obtain a level of assurance that would make me aware of all significant circumstances that might be identified in an audit. Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the attached interim financial information has not been prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act in terms of the Group, and in accordance with the Swedish Annual Accounts Act in terms of the Parent Company.
